

SchoolWrite tips for resellers

SchoolWrite pays its own way!

A SchoolWrite license can be purchased at no cost to the school. Here's how!

Parents are invited to make a voluntary donation at the end of their Fees statement. (See *State-ment Messages and Amounts in Print Statements submenu*)

As each parent contributes a small amount, the

target is reached without the school office having to find the budget. The same fund can continue to con-

tribute towards computers for students, computer upgrades, etc.

Amount Paid (\$)

ple data demonstration data is installed with the following wording:

Amount for SchoolWrite management software to communicate with parents and keep records. This will later fund new computers for students .. \$100

The voluntary amount is added to the Fees owing total, and is received separately in School Banking

(Words and amount may be changed or omitted.)

Steps for SchoolWrite to pay its own way:

1. Instal SchoolWrite
2. Obtain free 60 day Registration Key
3. Bill school fees + voluntary donation.
4. Receive funds from Parents (enter school banking & print receipts for donations)
5. Pay for SchoolWrite license from parent donations
6. Register required modules
