- [Synergy - working together](#)
- [Starting point - Student module](#)
- [Partnership with the software supplier](#)

Welcome to the SchoolWrite newsletter

This Newsletter is for the world-wide SchoolWrite community of those involved in school administration, providing:

- Information to help you make better use of SchoolWrite's features,
- News of SchoolWrite developments, and
- Tips gathered from other SchoolWrite users.

### Starting point - Student module

**The starting point for SchoolWrite is the Students module. This encompasses the database of current enrolments, as well as past academic records.**

Included with the Students module is the **SchoolWrite Intranet**. When student photos are included this becomes an vital tool for quick information on students throughout the school.

*Intranet pages of student details are automatically kept up-to-date.*

### Renew trial Registration Key:

[Renew](#)

A user Registration Key for a further trial period will be emailed to you. Please supply the NAME of the school

### Unsubscribe:

[Unsubscribe](#)

This email has been sent to you because you requested and received a trial Registration Key for SchoolWrite software

### Current software version

The current download version of SchoolWrite software is: **3.2a.05**  
The download location is [www.schoolwrite.com](http://www.schoolwrite.com)

### Synergy - working together

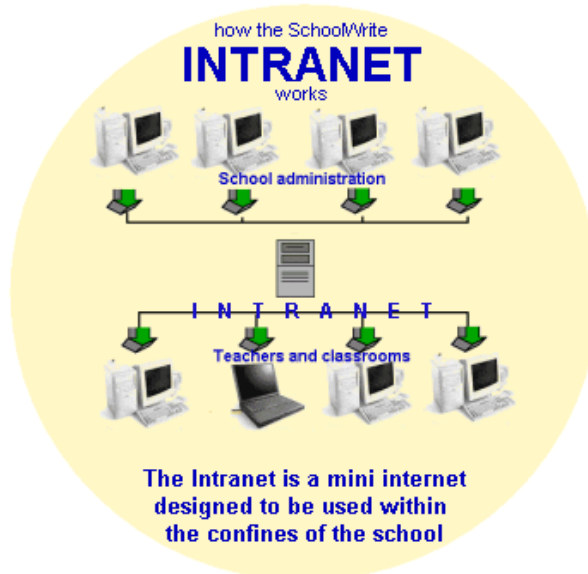

**When you run SchoolWrite software in your school, you can work together with the software developers to obtain the outcomes that you need.**

Reports can be tailored to your **exact** specifications to provide your school with printouts and formats needed.

Printouts may be tailored for any number of requirements, including

- Semester Reports
- Transcripts
- Promotion reports
- Statistical reports

Interfaces to other systems used within the school can also be developed - to specification.

*Intranet - included with the Student module.*

### Partnership with the software supplier

**Welcome to the new era of computer software - the email era.** Thanks to email, software suppliers now work in partnership with schools to provide quality, professional results. And it is not expensive - in fact email communication need not cost anything at all. Any costs for extended support will be advised up front so you can decide.

SchoolWrite provides free email support, to assist school staff with getting the most from the software.

You are guaranteed **same day - next day** response times *wherever in the world* your school is situated.
